

Public Safety: Data builds wisdom

Data Day

7.22.14

Moderator: Shannon Cosgrove

Mayor's Office on Criminal Justice

VISION

to provide residents of Baltimore City a safer, healthier and stronger community. We operate from a belief that efforts to reduce crime and delinquency, eradicate gang involvement, diminish the drug trade, and address the collateral consequence of system involvement will work only if they are coordinated through city government in collaboration with state and federal officials, faith and community-based partners and impacted persons.

Mayor's Office on Criminal Justice

RESPONSIBILITIES

Welcome to Baltimore City's Data Catalog

The goal of OpenBaltimore is to provide, to the public, access to City data in an effort that supports government transparency, openness and innovative uses that will help improve the lives of Baltimore residents, visitors and businesses through use of technology. OpenBaltimore will enable the local developer community to develop applications that will hopefully help the city solve problems.

Data: Building Wisdom

“We can make an effort, as Martin Luther King did, to understand and to comprehend, and replace that violence, that stain of bloodshed that has spread across our land, with an effort to understand, compassion and love.... What we need in the United States is not division; what we need in the United States is not hatred; what we need in the United States is not violence and lawlessness, but is love and wisdom, and compassion toward one another, and a feeling of justice toward those who still suffer within our country.” – Robert F. Kennedy
