Most indicators throughout *Vital Signs 13* are created by acquiring and analyzing data collected from governmental agencies for some public administration purpose, such as 311 calls or housing inspections. However, data from the United States Bureau of the Census remains the best source for demographic and socioeconomic indicators for neighborhoods. The Census Bureau collects a wide variety of information through administration of both the decennial Census and the annual American Community Survey (ACS).

Prior to 2010, the Census administered both a long- and short-form decennial Census which was used to collect detailed information on residents of the United States. Starting with the 2010 Census, only a short-form Census was administered to all households and the long-form was replaced with the ACS. The ACS is an ongoing, continuous survey used to collect data once supplied by the Census long-form. The main benefit of the ACS is access to small-area data for the City of Baltimore on an annual basis; however, community-level information is averaged over 5-years of data collection making interpretation of the data more challenging.

In *Vital Signs 13*, population counts, race/ethnicity, age and sex indicators continue to use the 2010 Census<sup>1</sup> since these are based on the full enumeration of the City's population. Even though ACS data is released annually, year-over-year comparisons cannot be directly made since four of the five years in each time period overlap and any changes during this time period may not reflect change that occurred in that one single year<sup>2</sup>. Indicators in *Vital Signs 13* calculated using the latest 5-year average from the 2009-2013 ACS data will be noted.

Census data are frequently used throughout *Vital Signs* as denominators for normalizing many other indicators and rates. The socioeconomic and demographic indicators are grouped into the following categories: *population, race/ethnicity, age, households, and income and poverty*.

## Population

The Community Statistical Areas (CSA) that are used to report *Vital Signs* data are aggregations of census tracts that represent neighborhoods. Since the CSAs vary by population size, many indicators are normalized by population so that rates and percentages can be compared uniformly. The **largest** CSAs in terms of population size are Cedonia/Frankford (23,557), Greater Rosemont (19,259), and Southwest Baltimore (17,885). The **smallest** CSAs are Dickeyville/Franklintown (4,101), Poppleton/The Terraces/Hollins Market

---

<sup>1</sup> For more details on how neighborhoods changed between the 2000 and 2010 Censuses, see Vital Signs 10, Census Demographics chapter, [www.bniajfi.org](http://www.bniajfi.org)

<sup>2</sup> For more information on data interpretation of the American Community Survey visit [www.census.gov](http://www.census.gov).

(5,086), and Mt. Washington/Coldspring (5,168). These also are the **highest** and **lowest** CSAs with respect to total male population.

Total female population is **highest** in Cedonia/Frankford, Greater Rosemont and Belair-Edison and **lowest** in Dickeyville/Franklintown, Poppleton/The Terraces/Hollins Market and Washington Village.

## Race (Non-Hispanic)

The Census asks two separate questions for respondents to identify race (white, black, Asian, 2 or more, or other) and ethnicity (Hispanic or Non-Hispanic). *Vital Signs 13* reports race for non-Hispanic persons only, to more clearly understand the impact of the growing Hispanic population by CSA (see below). In 2010, the City was 63.8% non-Hispanic black and 28.3% non-Hispanic white. The CSAs with the **highest percentage non-Hispanic black** were Edmondson Village (96.7%) and Clifton-Berea (96.3%). The CSAs with the **highest percentage non-Hispanic white** were South Baltimore (90.3%) and Canton (86.0%). The CSAs with the **highest percentage non-Hispanic Asian** were Downtown/Seton Hill (15.9%) and Greater Charles Village/Barclay (13.3%).

## Ethnicity and Diversity

Although the City as a whole is only 4.2% ethnically Hispanic, some Baltimore neighborhoods have high percentages of Hispanic residents, particularly in the southeast part of the City. The CSAs with the **highest percentage Hispanic population** are Orangeville/East Highlandtown (30.3%), Patterson Park North & East (21.1%), and Southeastern (19.9%). These CSAs also correspond to the areas with the **greatest racial diversity**, which is the chance of choosing two people at random in a neighborhood and each being a different race or ethnicity.

## Age

Population age groups reflect “life cycle” ranges from 0-5, school-age, college-age, working-age and seniors. The CSAs with the **highest percentage population 0 to 5 years old** were Cherry Hill (11.4%) and Madison/East End (10.4%). The CSAs with the **highest percentage population 6 to 18 years old** were also Cherry Hill (24.3%) and Madison/East End (22.3%). The CSAs with the **highest percentage population 19 to 24 years old** were Greater Charles Village/Barclay<sup>3</sup> (33.9%) and North Baltimore/Guilford/Homeland<sup>4</sup> (28.2%). The CSAs with the **highest percentage population 25 to 64 years old** were Canton (71.5%) and South Baltimore (70.9%). The CSAs with the **highest percentage population 65 years old or older** were Glen-Fallstaff (17.9%) and Morrell Park/Violetville (17.8%).

## Households

---

<sup>3</sup> This CSA includes the Johns Hopkins University Homewood Campus

<sup>4</sup> This CSA includes the campuses of Loyola University of Maryland and Notre Dame University

Similar to population size, the CSAs vary by **total number of households**, and some indicators are normalized by households so that rates and percentages can be compared uniformly. CSAs in terms of number of households are not the same as the ones for population size, since households can range from single-person to large families. The **largest** CSAs in terms of number of households are Cedonia/Frankford (9,348), Midtown (9,078) and Medfield/Hampden/ Woodberry/Remington (8,289). The **smallest** CSAs are Dickeyville/Franklinton (1,877), Poppleton/The Terraces/Hollins Market (2,181) and Washington Village/Pigtown (2,273).

The City's **average household size** is 2.4 persons with CSAs ranging from a **high** of 3.3 persons per household in Madison/East End to a **low** of 1.6 in Downtown. These same CSAs correspond to the **highest** and **lowest** percent of **households with children under 18 years old**, 51.0% in Madison/East End and 8.6% in Downtown.

- Of the households with children under 18, 54.9% of Baltimore City's households were identified as being female-headed. The CSAs with the **highest** percentage of **female-headed households with children under 18** were with Oldtown/Middle East (81.4%) and Cherry Hill (80.7%).

## Income and Poverty

Using the 2009-2013 American Community Survey, the **median household income** in Baltimore was \$41,385, although there is a wide range by CSA. The CSA with the **greatest** median household income was Greater Roland Park/Poplar Hill (\$106,771) and the **lowest** is Oldtown/Middle East (\$13,887).

### *Data Story: Percent of Children Living In Poverty*

*From the 2014 Community Needs Assessment for Baltimore City*

The findings throughout this report demonstrate significant, measurable progress towards improving the lives of families and children in Baltimore over the past decade. However, underlying, and potentially even undermining, that progress is the compounding negative effects of poverty on families and children. In this year of reflection on the nation's 50th anniversary of the War on Poverty, it's important to reflect on the scale of poverty in Baltimore City:

- **More than 30% of children in Baltimore live in poverty:** Although the trends are pointing in a positive direction for Baltimore City, poverty rates continue to be nearly triple the level of other counties in the region along any measure (individual, family or children).
- **The Hispanic population is growing in Baltimore with increasing rate of children living in poverty.** The number of Hispanic children more than doubled between 2000 and 2010, and the percent living in poverty increased from 22.2% in 2000 to 30.9% in 2010.
- **The distribution of neighborhood poverty has expanded outward from the historical core.** Between 2000 and 2010, the City saw significant changes with the large concentration of poverty near the center of Baltimore in 2000 being replaced by smaller pockets of poverty distributed throughout eastern, western and southern Baltimore by 2010, which potentially impacts the location and outreach for programs intended for alleviation of childhood poverty in Baltimore.

*By the Baltimore Neighborhood Indicators Alliance—Jacob France Institute. For more information, visit [www.bnaijfi.org/currentprojects](http://www.bnaijfi.org/currentprojects)*

- Roughly a third (33.2%) of the City's households **earn less than \$25,000** annually. The CSAs with the **greatest** percentage of households earning less than \$25,000 annually include Upton/Druid Heights (65.6%), Oldtown/Middle East (63.1%), and Poppleton/The Terraces/Hollins Market (62.4%).
- A quarter (25.5%) of households **earn more than \$75,000** annually. The CSAs with the **greatest** percentage of households earning more than \$75,000 annually include Greater Roland Park/Poplar Hill (60.6%), Canton (57.9%), South Baltimore (55.4%), Inner Harbor/Federal Hill (54.7%), and North Baltimore/Guilford/Homeland (52.9%).

*Vital Signs 13* reports the percentage of households and the percentage of children that are living below the poverty line. The poverty line is determined by the United States Department of Health and Human Services and varies based upon the composition of the family (number of adults and number of children).

- For 2009-2013, 19.1% of the **households in Baltimore City were living below the poverty line**. The CSAs with the **greatest** percentage of households in poverty included Upton/Druid Heights (50.6%) and Oldtown/Middle East (50.5%).
- For 2009-2013, 34.1% of **children in Baltimore City lived below the poverty line**. The CSAs with the **greatest** percentage of children living in poverty included Oldtown/Middle East (69.0%), Harbor East/Little Italy (63.5%), and Poppleton/The Terraces/ Hollins Market (63.2%).

# Census Demographics

---

## Indicator Definitions and Rankings

For each indicator reported in *Vital Signs 13*, we provide the data source, the years for which it is reported, and the five CSAs with the highest and lowest values for the indicator; these may not correspond to positive or negative trends<sup>1</sup>.

### Population

#### Total Population

*Measure of persons living in an area.*

**Definition:** The total number of persons of all ages that live within an area. This indicator is frequently used to normalize data to allow for comparison across areas.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Southwest Baltimore
4. North Baltimore/Guilford/Homeland
5. Belair-Edison

#### Five Lowest:

1. Dickeyville/Franklintown
2. Poppleton/The Terraces/Hollins Market
3. Mt. Washington/Coldspring
4. Harbor East/Little Italy
5. Washington Village

#### Total Male Population

*Measure of males living in an area.*

**Definition:** The total number of men of all ages of all ages that live within an area.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Southwest Baltimore
4. Greater Charles Village/Barclay
5. Medfield/Hampden/Woodberry

#### Five Lowest:

1. Dickeyville/Franklintown
2. Mt. Washington/Coldspring
3. Poppleton/The Terraces/Hollins Market
4. Harbor East/Little Italy
5. Washington Village

---

<sup>1</sup> The source for indicators in the categories of Population, Diversity, Age, and Households is the 2010 decennial census

## Total Female Population

*Measure of females living in an area.*

**Definition:** The total number of women of all ages that live within an area.

**Source:** U.S. Census Bureau, 2010

### Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Belair-Edison
4. North Baltimore/Guilford/Homeland
5. Southwest Baltimore

### Five Lowest:

1. Dickeyville/Franklintown
2. Poppleton/The Terraces/Hollins Market
3. Washington Village
4. Harbor East/Little Italy
5. Mt. Washington/Coldspring

## Non-Hispanic Race/Ethnicity/Diversity

### Percent of Residents - Black/African American

*Measure of non-Hispanic African American persons living in an area.*

**Definition:** The total number of persons that identify themselves as being racially Black or African American (and ethnically non-Hispanic) out of the total number of persons living in an area. “Black or African American” refers to a person having origins in any of the Black racial groups of Africa. It includes people who indicated their race as “Black”.

**Source:** U.S. Census Bureau, 2010

### Five Highest:

1. Edmondson Village
2. Sandtown-Winchester/Harlem Park
3. Greater Rosemont
4. Clifton-Berea
5. Greater Mondawmin

### Five Lowest:

1. South Baltimore
2. Canton
3. Fells Point
4. Greater Roland Park/Poplar Hill
5. Highlandtown

### Percent of Residents - Non-Hispanic White

*Measure of non-Hispanic White persons living in an area.*

**Definition:** The total number of persons that identify themselves as being racially White (and ethnically non-Hispanic) out of the total number of persons living in an area. “White” refers to a person having origins in any of the original peoples of Europe, the Middle East, or North Africa. It includes people who indicated their race(s) as “White”.

**Source:** U.S. Census Bureau, 2010

### Five Highest:

1. South Baltimore
2. Canton
3. Inner Harbor/Federal Hill
4. Greater Roland Park/Poplar Hill
5. Medfield/Hampden/Woodberry

### Five Lowest:

1. Greater Rosemont
2. Edmondson Village
3. Clifton-Berea
4. Sandtown-Winchester/Harlem Park
5. Greater Mondawmin

### **Percent of Residents - Non-Hispanic Asian**

*Measure of Asian persons living in an area.*

**Definition:** The total number of persons that identify themselves as being Asian (and non-Hispanic) out of the total number of persons living in an area. “Asian” refers to a person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

**Source:** *U.S. Census Bureau, 2010*

#### **Five Highest:**

1. Downtown/Seton Hill
2. Greater Charles Village/Barclay
3. Greater Roland Park/Poplar Hill
4. Midtown
5. North Baltimore/Guilford/Homeland

#### **Five Lowest:**

1. Edmondson Village
2. Forest Park/Walbrook
3. Greater Rosemont
4. Greater Mondawmin
5. Southern Park Heights

### **Percent of Residents - Two or More Races**

*Measure of persons reporting being of two or more races living in an area.*

**Definition:** The total number of persons that identify themselves as being of two or more races (and non-Hispanic) out of the total number of persons living in an area.

**Source:** *U.S. Census Bureau, 2010*

#### **Five Highest:**

1. Brooklyn/Curtis Bay/Hawkins Point
2. Midtown
3. Downtown/Seton Hill
4. Greater Charles Village/Barclay
5. Washington Village

#### **Five Lowest:**

1. Dorchester/Ashburton
2. Sandtown-Winchester/Harlem Park
3. Oldtown/Middle East
4. Dickeyville/Franklinton
5. Greenmount East

### Percent of Residents - All Other Races

*Measure of persons reporting being of a race other than African American, White, Asian, or Two or More races living in an area.*

**Definition:** The total number of persons that identify themselves as being of either American Indian, Alaskan Native, Native Hawaiian or Other Pacific Islander, or some other race (non-Hispanic) out of the total number of persons living in an area.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Southeastern
2. Patterson Park North & East
3. Highlandtown
4. Orangeville/East Highlandtown
5. Claremont/Armistead

#### Five Lowest:

1. Sandtown-Winchester/Harlem Park
2. Loch Raven
3. Greater Roland Park/Poplar Hill
4. Clifton-Berea
5. Greater Rosemont

### Racial Diversity Index

*Measures the degree of racial diversity within an area.*

**Definition:** The percent chance that two people picked at random within an area will be of a different race/ethnicity. This number does not reflect which race/ethnicity is predominant within an area. The higher the value, the more racially and ethnically diverse an area.

**Source:** U.S. Census Bureau, 2010

### Percent of Residents - Hispanic

*Measure of the number of Hispanic persons in an area.*

**Definition:** The total number of persons that identify their ethnicity as being Hispanic or Latino out of the total number of persons living in an area. Hispanic origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person's parents or ancestors before their arrival in the United States. People who identify their origin as Hispanic, Latino, or Spanish may be any race.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Orangeville/East Highlandtown
2. Patterson Park North & East
3. Southeastern
4. Highlandtown
5. Fells Point

#### Five Lowest:

1. Sandtown-Winchester/Harlem Park
2. Edmondson Village
3. Greater Mondawmin
4. Greenmount East
5. Southern Park Heights

#### Five Highest:

1. Orangeville/East Highlandtown
2. Patterson Park North & East
3. Southeastern
4. Downtown/Seton Hill
5. Greater Charles Village/Barclay

#### Five Lowest:

1. Sandtown-Winchester/Harlem Park
2. Edmondson Village
3. Greater Rosemont
4. Clifton-Berea
5. Greater Mondawmin

## Age

### Percent of Population 0 to 5 Years Old

*Measure of very young persons (before school age) in an area.*

**Definition:** The percent of persons 5 years or under out of all persons living in an area.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Cherry Hill
2. Madison/East End
3. Brooklyn/Curtis Bay/Hawkins Point
4. Upton/Druid Heights
5. Cross-Country/Cheswolde

#### Five Lowest:

1. Midtown
2. Greater Charles Village/Barclay
3. Downtown/Seton Hill
4. Canton
5. Greater Roland Park/Poplar Hill

### Percent of Population 19 to 24 Years Old

*Measure of persons aged 19 to 24 years old (approximately college age) in an area.*

**Definition:** The percent of persons aged 19 to 24 years old out of all persons living in an area.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Greater Charles Village/Barclay
2. North Baltimore/Guilford/Homeland
3. Northwood
4. Midtown
5. Downtown/Seton Hill

#### Five Lowest:

1. Mt. Washington/Coldspring
2. Greater Roland Park/Poplar Hill
3. Hamilton
4. Morrell Park/Violetville
5. Lauraville

### Percent of Population 6 to 18 Years Old

*Measure of persons aged 6 to 18 years old (school aged) in an area.*

**Definition:** The percent of persons aged 6 to 18 years old out of all persons living in an area.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Cherry Hill
2. Madison/East End
3. Westport/Mt. Winans/Lakeland
4. Belair-Edison
5. Upton/Druid Heights

#### Five Lowest:

1. Canton
2. Midtown
3. Downtown/Seton Hill
4. Inner Harbor/Federal Hill
5. South Baltimore

### Percent of Population 25 to 64 Years Old

*Measure of persons aged 25 to 64 (approximately working age) in an area.*

**Definition:** The percent of persons aged 25 to 64 years old out of all persons living in an area

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Canton
2. Fells Point
3. South Baltimore
4. Downtown/Seton Hill
5. Inner Harbor/Federal Hill

#### Five Lowest:

1. Cross-Country/Cheswolde
2. Cherry Hill
3. North Baltimore/Guilford/Homeland
4. Northwood
5. Madison/East End

## Percent of Population 65 Years Old and Above

*Measure of seniors living in an area.*

**Definition:** The total number of persons 65 years old and above out of all persons living in an area.

**Source:** U.S. Census Bureau, 2010

### Five Highest:

1. Cross-Country/Cheswolde
2. Howard Park/West Arlington
3. Greater Roland Park/Poplar Hill
4. Glen-Falstaff
5. Morrell Park/Violetville

### Five Lowest:

1. Downtown/Seton Hill
2. Patterson Park North & East
3. Harbor East/Little Italy
4. Madison/East End
5. Brooklyn/Curtis Bay/Hawkins Point

## Households

### Total Number of Households

*Measure of households in an area.*

**Definition:** A household consists of all the people occupying a housing unit. A household includes related and unrelated persons, if any, such as lodgers, foster children, wards, or employees who share the housing unit. A person living alone in a housing unit, or a group of unrelated people sharing a housing unit such as partners or roomers, is also counted as a household. The count of households excludes group quarters.

**Source:** U.S. Census Bureau, 2010

### Five Highest:

1. Cedonia/Frankford
2. Midtown
3. Medfield/Hampden/Woodberry
4. Greater Charles Village/Barclay
5. Harford/Echodale

### Five Lowest:

1. Dickeyville/Franklinton
2. Poppleton/The Terraces/Hollins Market
3. Washington Village
4. Madison/East End
5. Harbor East/Little Italy

### Average Household Size

*Measures the average size of the households within an area.*

**Definition:** The median value of number of persons living within a household. The average size of a household is obtained by dividing the number of persons in households by the number of households (or householders).

**Source:** U.S. Census Bureau, 2010

### Five Highest:

1. Madison/East End
  2. Midway/Coldstream
  3. Belair-Edison
- Three CSAs tied for 4<sup>th</sup> and 5<sup>th</sup>

### Five Lowest:

1. Downtown/Seton Hill
2. Midtown
3. Canton
4. Mt. Washington/Coldspring
5. Inner Harbor/Federal Hill

### Percent of Households with Children Under the Age of 18

*Measure of households with children.*

**Definition:** The percentage of households with children living in the household that are under the age of 18 out of all households.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Madison/East End
2. Cherry Hill
3. Westport/Mt. Winans/Lakeland
4. Belair-Edison
5. Brooklyn/Curtis Bay/Hawkins Point

#### Five Lowest:

1. Midtown
2. Downtown/Seton Hill
3. Canton
4. Greater Charles Village/Barclay
5. Fells Point

### Percent of Female-Headed Households with Children under 18

*Measure of households with children headed by females in an area.*

**Definition:** The percentage of female-headed households with children under 18 out of all households with children under 18 in an area.

**Source:** U.S. Census Bureau, 2010

#### Five Highest:

1. Oldtown/Middle East
2. Cherry Hill
3. Upton/Druid Heights
4. Poppleton/The Terraces/Hollins Market
5. Harbor East/Little Italy

#### Five Lowest:

1. Greater Roland Park/Poplar Hill
2. North Baltimore/Guilford/Homeland
3. South Baltimore
4. Cross-Country/Cheswolde
5. Canton

## Income and Poverty

### Median Household Income

*Measures the relative wealth of households in an area.*

**Definition:** The median household income is the middle value of the incomes earned by households within an area for the prior year. The median value is used as opposed to the average so that both extremely high and extremely low prices do not distort the total amount of income earned by households in an area.

**Source:** American Community Survey 2009-2013

#### Five Highest:

1. Greater Roland Park/Poplar Hill
2. South Baltimore
3. Canton
4. Inner Harbor/Federal Hill
5. North Baltimore/Guilford/Homeland

#### Five Lowest:

1. Oldtown/Middle East
2. Upton/Druid Heights
3. Poppleton/The Terraces/Hollins Market
4. Cherry Hill
5. Southern Park Heights

### Percent of Households Earning Less than \$25,000 a Year

*Measures the concentration of households that earned less than \$25,000 in the previous year.*

**Definition:** The percentage of households earning less than \$25,000 out of all households in an area.

**Source:** American Community Survey, 2009-2013

#### Five Highest:

1. Upton/Druid Heights
2. Oldtown/Middle East
3. Poppleton/The Terraces/Hollins Market
4. Greenmount East
5. Southern Park Heights

#### Five Lowest:

1. Canton
2. Greater Roland Park/Poplar Hill
3. South Baltimore
4. Two CSAs tied: Lauraville & Hamilton

### Percent of Households Earning \$25,000 to \$40,000 a Year

*Measures the concentration of households with earnings in the previous year between \$25,000 and \$39,999 in an area.*

**Definition:** The percentage of households earning between \$25,000 and \$39,999 out of all households in an area.

**Source:** American Community Survey, 2009-2013

#### Five Highest:

1. Howard Park/West Arlington
2. Cherry Hill
3. Edmondson Village
4. Clifton-Berea
5. Midway/Coldstream

#### Five Lowest:

1. Inner Harbor/Federal Hill
2. South Baltimore
3. Canton
4. Greater Roland Park/Poplar Hill
5. North Baltimore/Guilford/Homeland

### Percent of Households Earning \$60,000 to \$75,000 a Year

*Measures the concentration of households with earnings in the previous year between \$60,000 and \$74,999 in an area.*

**Definition:** The percentage of households earning between \$60,000 and \$74,999 out of all households in an area.

**Source:** American Community Survey, 2009-2013

#### Five Highest:

1. Loch Raven
2. Allendale/Irvington/S. Hilton
3. Northwood
4. Hamilton
5. Mt. Washington/Coldspring

#### Five Lowest:

1. Oldtown/Middle East
2. Forest Park/Walbrook
3. Harbor East/Little Italy
4. Claremont/Armistead
5. Greenmount East

### Percent of Households Earning \$40,000 to \$60,000 a Year

*Measures the concentration of households with earnings in the previous year between \$40,000 and \$59,999 in an area.*

**Definition:** The percentage of households earning between \$40,000 and \$59,999 out of all households in an area.

**Source:** American Community Survey, 2009-2013

#### Five Highest:

1. Loch Raven
2. Dickeyville/Franklinton
3. Beechfield/Ten Hills/West Hills
4. Medfield/Hampden/Woodberry/Remington
5. Westport/Mt. Winans/Lakeland

#### Five Lowest:

1. Harbor East/Little Italy
2. Poppleton/The Terraces/Hollins Market
3. Oldtown/Middle East
4. Two CSAs tied: Upton/Druid Heights & Greenmount East

### Percent of Households Earning More than \$75,000 a Year

*Measures the concentration of households with earnings in the previous year over \$75,000 in an area.*

**Definition:** The percentage of households earning more than \$75,000 out of all households in an area.

**Source:** American Community Survey, 2009-2013

#### Five Highest:

1. Greater Roland Park/Poplar Hill
2. Canton
3. South Baltimore
4. Inner Harbor/Federal Hill
5. North Baltimore/Guilford/Homeland

#### Five Lowest:

1. Upton/Druid Heights
2. Sandtown-Winchester/Harlem Park
3. Clifton-Berea
4. Oldtown/Middle East
5. Cherry Hill

### **Percent of Households Living Below the Poverty Line**

*Measures economic conditions in an area.*

**Definition:** This indicator measures the percentage of households whose income fell below the poverty threshold out of all households in an area. Federal and state governments use such estimates to allocate funds to local communities. Local communities use these estimates to identify the number of individuals or families eligible for various programs.

**Source:** *American Community Survey, 2009-2013*

#### **Five Highest:**

1. Upton/Druid Heights
2. Oldtown/Middle East
3. Poppleton/The Terraces/Hollins Market
4. Harbor East/Little Italy
5. Cherry Hill

#### **Five Lowest:**

1. Greater Roland Park/Poplar Hill
2. Canton
3. Mt. Washington/Coldspring
4. South Baltimore
5. Hamilton

### **Percent of Children Living Below the Poverty Line**

*Measures economic conditions facing persons under the age of 18.*

**Definition:** This indicator measures the percentage of persons under the age of 18 living in households where the total income fell below the poverty threshold out of all children in households in an area. Federal and state governments use such estimates to allocate funds to local communities. Local communities use these estimates to identify the number of individuals or families eligible for various programs.

**Source:** *American Community Survey, 2009-2013*

#### **Five Highest:**

1. Oldtown/Middle East
2. Harbor East/Little Italy
3. Poppleton/The Terraces/Hollins Market
4. Upton/Druid Heights
5. Cherry Hill

#### **Five Lowest:**

1. Greater Roland Park/Poplar Hill
2. South Baltimore
3. Lauraville
4. Canton
5. Mt. Washington/Coldspring
