BNIA-JFI would like to thank the following: **University of Baltimore, Jacob France Institute, Merrick School of Business, Baltimore Corps, and BNIA-JFI Steering Committee Members** and organizations who generously provided Data Stories.

BNIA-JFI Staff who contributed to *Vital Signs 14*:

**Seema Iyer**, PhD, Associate Director, Jacob France Institute

**Brandon Nida**, PhD, Research Associate

**Cheryl Knott**, GIS Analyst

**Nancy Jones**, Data Manager

**Christine Hwang**, Baltimore Corps Fellow

**Evan Mahone**, Statistician

**Alange' Jacobs**, Student Assistant

**Cynthia Green**, Student Assistant

**David Carpenter**, Web Developer

Report design by **Zak Bickel**

**M**ost indicators throughout *Vital Signs 14* are created by acquiring and analyzing data collected from government agencies for some public administration purpose, such as 311 calls or housing inspections. However, the best source for demographic and socioeconomic data on the people who live in neighborhoods comes from the United States Bureau of the Census. The Census Bureau collects a wide variety of information through the decennial Census as well as the continuous administration of the American Community Survey (ACS).

**Prior to 2010, the Census administered both a** long- and short-form decennial Census which was used to collect detailed information on residents of the United States. Starting with the 2010 Census, only a short-form Census was administered to all households and the long-form was replaced with the ACS. The ACS is an ongoing, continuous survey used to collect data once supplied by the Census long-form. The main benefit of the ACS is access to small-area data for the City of Baltimore on an annual basis; however, community-level information is averaged over 5-years of data collection making interpretation of the data challenging.

In *Vital Signs 14*, population counts, race/ethnicity, age, and sex indicators continue to use the 2010 Census<sup>1</sup> since these are based on the full enumeration of the City's population. Even though ACS data is released annually, year-over-year comparisons cannot be made directly since four of the five years in each time period overlap, and any changes during this time period may not reflect change that occurred in that one single year.<sup>2</sup> Indicators in *Vital Signs 14* calculated using the latest 5-year average from the 2010-2014 ACS data will be noted.

Census data are frequently used throughout *Vital Signs* as denominators for normalizing many other indicators and rates. The socioeconomic and demographic indicators are grouped into the following categories: *population, race/ethnicity, age, households, and income and poverty.*

## Population

The Community Statistical Areas (CSA) that are used to report *Vital Signs* data are aggregations of census tracts that represent neighborhoods. Since the CSAs vary by population size, many indicators are normalized by population so that rates and percentages can be compared uniformly. The largest CSAs in terms of population size are Cedonia/Frankford (23,557), Greater Rosemont (19,259), and Southwest Baltimore (17,885). The smallest CSAs are Dickeyville/Franklintown (4,101), Poppleton/The Terraces/Hollins Market (5,086), and Mt. Washington/Coldspring (5,168). These also are the highest and lowest CSAs with respect to total male population.

Total female population is highest in Cedonia/Frankford, Greater Rosemont and Belair-Edison and lowest in Dickeyville Franklintown, Poppleton/The Terraces/Hollins Market and Washington Village.

<sup>1</sup> For more details on how neighborhoods changed between the 2000 and 2010 Censuses, see *Vital Signs 10*, Census Demographics chapter, [bniajfi.org/vital\\_signs/archives/](http://bniajfi.org/vital_signs/archives/)

<sup>2</sup> For more information on data interpretation of the American Community Survey visit [www.census.gov](http://www.census.gov)

## Race (Non-Hispanic)

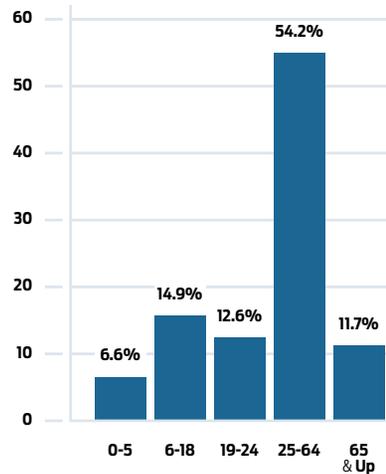

The Census asks two separate questions for respondents to identify race (white, black, Asian, 2 or more, or other) and ethnicity (Hispanic or Non-Hispanic). *Vital Signs 14* reports race for non-Hispanic persons only, to more clearly understand the impact of the growing Hispanic population by CSA (see below). In 2010, the City was 63.8% non-Hispanic black and 28.3% non-Hispanic white. The CSAs with the highest percentage non-Hispanic black were Edmondson Village (96.7%) and Clifton-Berea (96.3%). The CSAs with the highest percentage non-Hispanic white were South Baltimore (90.3%) and Canton (86.0%). The CSAs with the highest percentage non-Hispanic Asian were Downtown/Seton Hill (15.9%) and Greater Charles Village/Barclay (13.3%).

## Ethnicity and Diversity

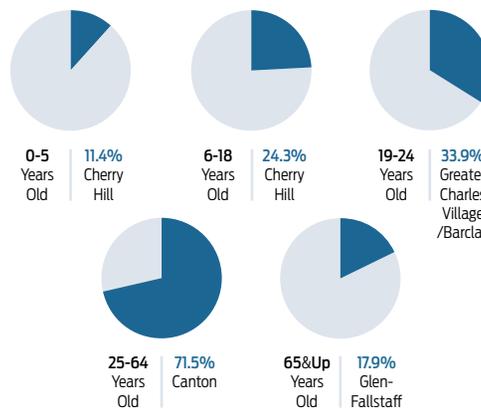

Although the City as a whole is only 4.2% ethnically Hispanic, some Baltimore neighborhoods have high percentages of Hispanic residents, particularly in the southeast part of the City. The CSAs with the highest percentage Hispanic populations are Orangeville/East Highlandtown (30.3%), Patterson Park North & East (21.1%), and Southeastern (19.9%). These CSAs also correspond to the areas with the greatest racial diversity, which is the chance of choosing two people at random in a neighborhood and each being a different race or ethnicity.

### Baltimore City: Total Population By Age

### CSAs With the Highest Percentage Population by Age

SOURCE: 2010 US CENSUS

## Age

Population age groups reflect “life cycle” ranges from zero to five, school-age, college-age, working-age and seniors. The CSAs with the highest percentage population 0 to 5 years old were Cherry Hill (11.4%) and Madison/East End (10.4%). The CSAs with the highest percentage population 6 to 18 years old were also Cherry Hill (24.3%) and Madison/East End (22.3%). The CSAs with the highest percentage population 19 to 24 years old were Greater Charles Village/Barclay<sup>3</sup> (33.9%) and North Baltimore/Guilford/Homeland<sup>4</sup> (28.2%). The CSAs with the highest percentage population 25 to 64 years old were Canton (71.5%) and South Baltimore (70.9%). The CSAs with the highest percentage population 65 years old or older were Glen-Fallstaff (17.9%) and Morrell Park/Violetville (17.8%).

## Households

Similar to population size, the CSAs vary by total number of households, and some indicators are normalized by households so that rates and percentages can be compared uniformly. CSAs in terms of number of households are not the same as the ones for population size, since households can range from a single person to large families. The largest CSAs in terms of number of households are Cedonia/Frankford (9,348), Midtown,(9,078), and Medfield/Hampden/Woodberry/Remington (8,289).

<sup>3</sup> This CSA includes the Johns Hopkins University Homewood Campus  
<sup>4</sup> This CSA includes the campuses of Loyola University of Maryland and Notre Dame University

The smallest CSAs are Dickeyville/Franklintown (1,877), Poppleton/The Terraces/Hollins Market (2,181), and Washington Village/Pigtown (2,273).

The City's average household size is 2.4 persons with CSAs ranging from a high of 3.3 persons per household in Madison/East End to a low of 1.6 in Downtown. These same CSAs correspond to the highest and lowest percentage of households with children under 18 years old, 51.0% in Madison/East End and 8.6% in Downtown.

- Of the households with children under 18, 54.9% of Baltimore City's households were identified as being female-headed. The CSAs with the highest percentage of female-headed households with children under 18 were Oldtown/Middle East (81.4%) and Cherry Hill (80.7%).

## Income and Poverty

Using the 2010-2014 American Community Survey, the median household income in Baltimore was \$41,819, although there is a wide range in median incomes by CSA. The CSA with the greatest median household income was Greater Roland Park/Poplar Hill (\$104,770) and the lowest is Oldtown/Middle East (\$14,105).

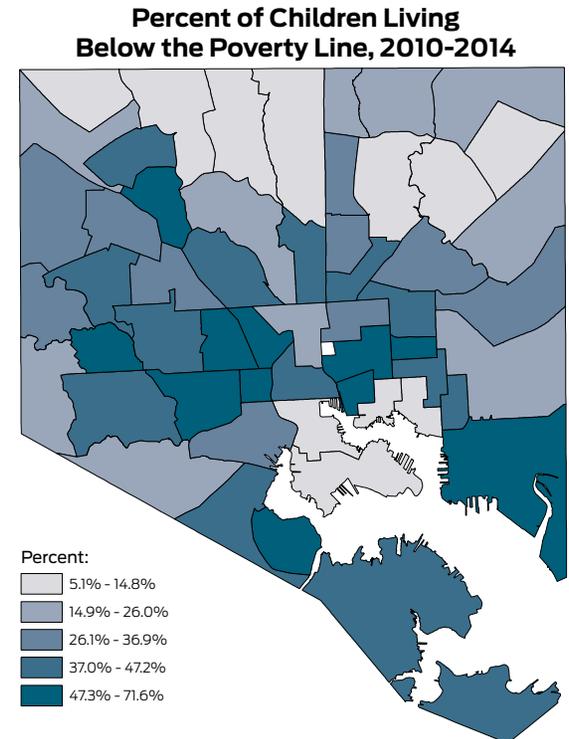

- Roughly a third (32.7%) of the City's households earn less than \$25,000 annually. The CSAs with the greatest percentage of house-

holds earning less than \$25,000 annually include Oldtown/Middle East (67.2%), Upton/Druid Heights (64.4%), and Poppleton/The Terraces/Hollins Market (62.0%).

- Slightly more than a quarter (26.2%) of households in Baltimore City earn more than \$75,000 annually. The CSAs with the greatest percentage of households earning more than \$75,000 annually include Canton (61.7%), Greater Roland Park/Poplar Hill (60.8%), and South Baltimore (57.6%).

*Vital Signs 14* also reports the percentage of family households and the percentage of children that are living below the poverty line using the 2010-2014 American Community Survey. The poverty line is determined by the United States Department of Health and Human Services and varies based upon the composition of the family (number of adults and number of children).

- For 2010-2014, 19.5% of family households in Baltimore City were living below the poverty line. The CSAs with the greatest percentage of families in poverty included Poppleton/The Terraces/Hollins Market (52.3%) and Oldtown/Middle East (51.4%).
- For 2010-2014, 34.6% of children in Baltimore City lived below the poverty line. The CSAs with the greatest percentage of children living in poverty included Poppleton/The Terraces/Hollins Market (71.6%) and Oldtown/Middle East (69.8%).

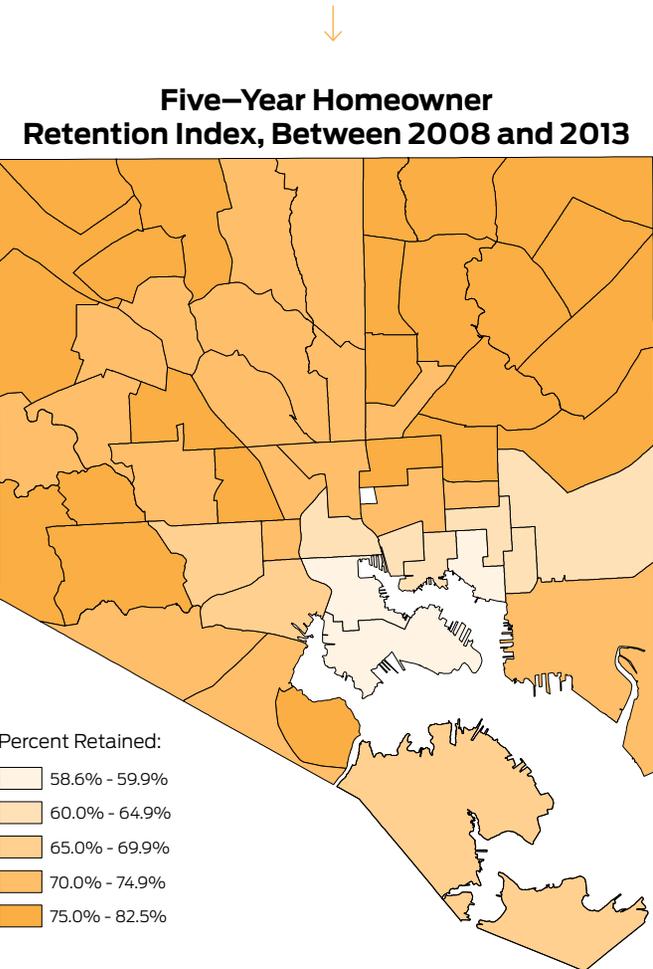

# Data Story: New Community Indicator for Grow Baltimore

## *Five-Year Homeowner Retention Index*

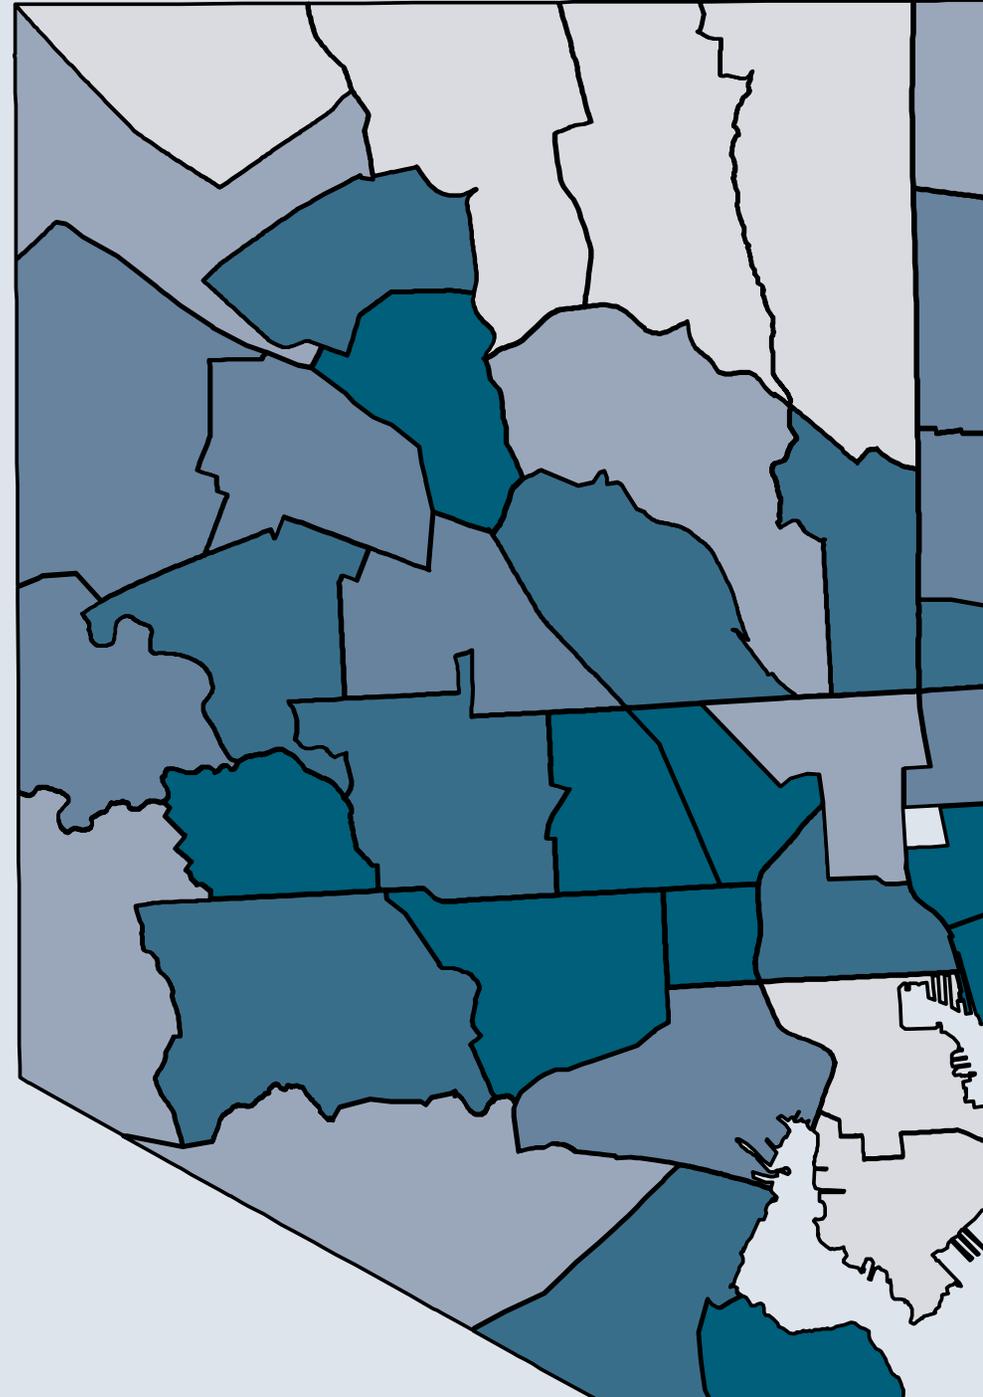

In 2011, Baltimore Mayor Stephanie Rawlings-Blake established the Grow Baltimore initiative and set a collective goal of increasing the city's population by 10,000 families by 2020. For Baltimore, like many other US cities on the eastern seaboard, such a goal is ambitious because it would reverse nearly six decades of population loss. However, since 2000, Baltimore has shown signs of being well-poised to grow so that the goal has the potential of being realized.

The Baltimore Neighborhood Indicators Alliance-Jacob France Institute has released a series of reports—"Grow Baltimore: Who's Moving, Where and Why"—which offers details about the "pull" factors that attract people to the city and retain the current population and the "push" factors that make residents move away.

To help communities track progress toward Baltimore's attainment of the Grow Baltimore goal of netting 10,000 more families, BNIA-JFI has developed a new community-based indicator to track residential retention at the CSA level. The Five-Year Homeowner Retention Index measures the percentage of owner-occupied households that remain under the same ownership for a five-year period. Between 2008 and 2013, Baltimore City as a whole retained 73.5% of its owner-occupied households. There is wide variation by community with the highest retention level in Loch Raven (82.5%) and the lowest in Canton (58.6%). While some turnover is expected in any community, very high turnover communities may be where retention efforts should be strategically targeted.

## Census Demographics: Indicator Definitions and Rankings

For each indicator reported in *Vital Signs 14*, we provide the data source, the years for which it is reported, and the five CSAs with the highest and lowest values for the indicator; these may not correspond to positive or negative trends.<sup>1</sup>

## Population

### Total Population

Measure of persons living in an area.

Definition: The total number of persons of all ages that live within an area. This indicator is frequently used to normalize data to allow for comparison across areas.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Southwest Baltimore
4. North Baltimore
5. Belair-Edison

#### Five Lowest:

1. Dickeyville/Franklintown
2. Poppleton/The Terraces/  
Hollins Market
3. Mt. Washington/Coldspring
4. Harbor East/Little Italy
5. Washington Village

### Total Male Population

Measure of males living in an area.

Definition: The total number of men of all ages that live within an area.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Southwest Baltimore
4. Greater Charles Village/Barclay
5. Medfield/Hampden/Woodberry/Remington

#### Five Lowest:

1. Dickeyville/Franklintown
2. Mt. Washington/Coldspring
3. Poppleton/The Terraces/  
Hollins Market
4. Harbor East/Little Italy
5. Washington Village

### Total Female Population

Measure of females living in an area.

Definition: The total number of women of all ages that live within an area.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Cedonia/Frankford
2. Greater Rosemont
3. Belair-Edison
4. North Baltimore/Guilford/Homeland
5. Southwest Baltimore

#### Five Lowest:

1. Dickeyville/Franklintown
2. Poppleton/The Terraces/Hollins Market
3. Washington Village
4. Harbor East/Little Italy
5. Mt. Washington/Coldspring

<sup>1</sup> The source for indicators in the categories of Population, Diversity, Age, and Households is the 2010 decennial census

## Non-Hispanic Race/Ethnicity/Diversity

### Percent of Residents - Black/African American

Measure of non-Hispanic African American persons living in an area.

Definition: The total number of persons that identify themselves as being racially Black or African American (and ethnically non-Hispanic) out of the total number of persons living in an area. "Black or African American" refers to a person having origins in any of the Black racial groups of Africa. It includes people who indicated their race as "Black."

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Edmondson Village
2. Sandtown-Winchester/Harlem Park
3. Greater Rosemont
4. Clifton-Berea
5. Greater Mondawmin

#### Five Lowest:

1. South Baltimore
2. Canton
3. Fells Point
4. Greater Roland Park/Poplar Hill
5. Highlandtown

### Percent of Residents - Non-Hispanic White

Measure of non-Hispanic White persons living in an area.

Definition: The total number of persons that identify themselves as being racially White (and ethnically non-Hispanic) out of the total number of persons living in an area. "White" refers to a person having origins in any of the original peoples of Europe, the Middle East, or North Africa. It includes people who indicated their race as "White."

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. South Baltimore
2. Canton
3. Inner Harbor/Federal Hill
4. Greater Roland Park/Poplar Hill
5. Medfield/Hampden/Woodberry/Remington

#### Five Lowest:

1. Greater Rosemont
2. Edmondson Village
3. Clifton-Berea
4. Sandtown-Winchester/Harlem Park
5. Greater Mondawmin

### Percent of Residents - Non-Hispanic Asian

Measure of Asian persons living in an area.

Definition: The total number of persons that identify themselves as being Asian (and non-Hispanic) out of the total number of persons living in an area. "Asian" refers to a person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Downtown/Seton Hill
2. Greater Charles Village/Barclay
3. Greater Roland Park/Poplar Hill
4. Midtown
5. North Baltimore/Guilford/Homeland

#### Five Lowest:

1. Edmondson Village
2. Forest Park/Walbrook
3. Greater Rosemont
4. Greater Mondawmin
5. Southern Park Heights

## Percent of Residents - Two or More Races

Measure of persons reporting being of two or more races living in an area.

Definition: The total number of persons that identify themselves as being of two or more races (and non-Hispanic) out of the total number of persons living in an area.

(SOURCE: US CENSUS BUREAU, 2010)

### Five Highest:

1. Brooklyn/Curtis Bay/Hawkins Point
2. Midtown
3. Downtown/Seton Hill
4. Greater Charles Village/Barclay
5. Washington Village

### Five Lowest:

1. Dorchester/Ashburton
2. Sandtown-Winchester/Harlem Park
3. Oldtown/Middle East
4. Dickeyville/Franklintown
5. Greenmount East

## Percent of Residents - All Other Races

Measure of persons reporting being of a race other than African American, White, Asian, or Two or More races living in an area.

Definition: The total number of persons that identify themselves as being of either American Indian, Alaskan Native, Native Hawaiian or Other Pacific Islander, or some other race (non-Hispanic) out of the total number of persons living in an area.

(SOURCE: US CENSUS BUREAU, 2010)

### Five Highest:

1. Southeastern
2. Patterson Park North & East
3. Highlandtown
4. Orangeville/East Highlandtown
5. Claremont/Armistead

### Five Lowest:

1. Sandtown-Winchester/Harlem Park
2. Loch Raven
3. Greater Roland Park/Poplar Hill
4. Clifton-Berea
5. Greater Rosemont

## Percent of Residents - Hispanic

Measure of the number of Hispanic persons in an area.

Definition: The total number of persons that identify their ethnicity as being Hispanic or Latino out of the total number of persons living in an area. Hispanic origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person's parents or ancestors before their arrival in the United States. People who identify their origin as Hispanic, Latino, or Spanish may be any race.

(SOURCE: US CENSUS BUREAU, 2010)

### Five Highest:

1. Orangeville/East Highlandtown
2. Patterson Park North & East
3. Southeastern
4. Highlandtown
5. Fells Point

### Five Lowest:

1. Sandtown-Winchester/Harlem Park
2. Edmondson Village
3. Greater Mondawmin
4. Greenmount East
5. Southern Park Heights

## Racial Diversity Index

**Measures the degree of racial diversity within an area.**

Definition: The percent chance that two people picked at random within an area will be of a different race/ethnicity. This number does not reflect which race/ethnicity is predominant within an area. The higher the value, the more racially and ethnically diverse an area.

(SOURCE: US CENSUS BUREAU, 2010)

### **Five Highest:**

1. Orangeville/East Highlandtown
2. Patterson Park North & East
3. Southeastern
4. Downtown/Seton Hill
5. Greater Charles Village/Barclay

### **Five Lowest:**

1. Sandtown-Winchester/Harlem Park
2. Edmondson Village
3. Greater Rosemont
4. Clifton-Berea
5. Greater Mondawmin

## Age

### Percent of Population 0 to 5 Years Old

Measure of very young persons (before school age) in an area.

Definition: The percent of persons 5 years or under out of all persons living in an area.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Cherry Hill
2. Madison/East End
3. Brooklyn/Curtis Bay/Hawkins Point
4. Upton/Druid Heights
5. Cross-Country/Cheswolde

#### Five Lowest:

1. Midtown
2. Greater Charles Village/Barclay
3. Downtown/Seton Hill
4. Canton
5. Greater Roland Park/Poplar Hill

### Percent of Population 6 to 18 Years Old

Measure of persons aged 6 to 18 years old (school aged) in an area.

Definition: The percent of persons aged 6 to 18 years old out of all persons living in an area.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Cherry Hill
2. Madison/East End
3. Westport/Mount Winans/Lakeland
4. Belair-Edison
5. Upton/Druid Heights

#### Five Lowest:

1. Canton
2. Midtown
3. Downtown/Seton Hill
4. Inner Harbor/Federal Hill
5. South Baltimore

### Percent of Population 19 to 24 Years Old

Measure of persons aged 19 to 24 years old (approximately college age) in an area.

Definition: The percent of persons aged 19 to 24 years old out of all persons living in an area.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Greater Charles Village/Barclay
2. North Baltimore/Guilford/Homeland
3. Northwood
4. Midtown
5. Downtown/Seton Hill

#### Five Lowest:

1. Mt. Washington/Coldspring
2. Greater Roland Park/Poplar Hill
3. Hamilton
4. Morrell Park/Violetville
5. Lauraville

## Percent of Population 25 to 64 Years Old

Measure of persons aged 25 to 64 (approximately working age) in an area.

Definition: The percent of persons aged 25 to 64 years old out of all persons living in an area.

(SOURCE: US CENSUS BUREAU, 2010)

### Five Highest:

1. Canton
2. Fells Point
3. South Baltimore
4. Downtown/Seton Hill
5. Inner Harbor/Federal Hill

### Five Lowest:

1. Cross-Country/Cheswolde
2. Cherry Hill
3. North Baltimore/Guilford/Homeland
4. Northwood
5. Madison/East End

## Percent of Population 65 Years Old and Above

Measure of seniors living in an area.

Definition: The total number of persons 65 years old and above out of all persons living in an area.

(SOURCE: US CENSUS BUREAU, 2010)

### Five Highest:

1. Cross-Country/Cheswolde
2. Howard Park/West Arlington
3. Greater Roland Park/Poplar Hill
4. Glen-Falstaff
5. Morrell Park/Violetville

### Five Lowest:

1. Downtown/Seton Hill
2. Patterson Park North & East
3. Harbor East/Little Italy
4. Madison/East End
5. Brooklyn/Curtis Bay/Hawkins Point

## Households

### Total Number of Households

Measure of households in an area.

Definition: A household consists of all the people occupying a housing unit. A household includes related and unrelated persons, if any, such as lodgers, foster children, wards, or employees who share the housing unit. A person living alone in a housing unit, or a group of unrelated people sharing a housing unit such as partners or roomers, are also counted as households. The count of households excludes group quarters.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Cedonia/Frankford
2. Midtown
3. Medfield/Hampden/Woodberry/Remington
4. Greater Charles Village/Barclay
5. Harford/Echodale

#### Five Lowest:

1. Dickeyville/Franklinton
2. Poppleton/The Terraces/Hollins Market
3. Washington Village
4. Madison/East End
5. Harbor East/Little Italy

### Average Household Size

Measures the average size of the households within an area.

Definition: The median value of number of persons living within a household. The average size of a household is obtained by dividing the number of persons in households by the number of households (or householders).

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Madison/East End
2. Midway/Coldstream
3. Belair-Edison  
Three CSAs tied for 4th and 5th

#### Five Lowest:

1. Downtown/Seton Hill
2. Midtown
3. Canton
4. Mt. Washington/Coldspring
5. Inner Harbor/Federal Hill

### Percent of Households with Children Under the Age of 18

Measure of households with children.

Definition: The percentage of households with children living in the household that are under the age of 18 out of all households.

(SOURCE: US CENSUS BUREAU, 2010)

#### Five Highest:

1. Madison/East End
2. Cherry Hill
3. Westport/Mount Winans/Lakeland
4. Belair-Edison
5. Brooklyn/Curtis Bay/Hawkins Point

#### Five Lowest:

1. Midtown
2. Downtown/Seton Hill
3. Canton
4. Greater Charles Village/Barclay
5. Fells Point

## Percent of Female-Headed Households with Children Under 18

Measure of households with children headed by females in an area.

Definition: The percentage of female-headed households with children under 18 out of all households with children under 18 in an area.

(SOURCE: US CENSUS BUREAU, 2010)

### **Five Highest:**

1. Oldtown/Middle East
2. Cherry Hill
3. Upton/Druid Heights
4. Poppleton/The Terraces/Hollins Market
5. Harbor East/Little Italy

### **Five Lowest:**

1. Greater Roland Park/Poplar Hill
2. North Baltimore/Guilford/Homeland
3. South Baltimore
4. Cross-Country/Cheswolde
5. Canton

## Income and Poverty

### Median Family Household Income

Measures the relative wealth of households in an area.

Definition: The median family household income is the middle value of the incomes earned by households within an area for the prior year. The median value is used as opposed to the average so that both extremely high and extremely low earnings do not distort the total amount of income earned by households in an area.

(SOURCE: AMERICAN COMMUNITY SURVEY, 2010–2014)

#### Five Highest:

1. Greater Roland Park/Poplar Hill
2. Canton
3. Inner Harbor/Federal Hill
4. South Baltimore
5. North Baltimore/Guilford/Homeland

#### Five Lowest:

1. Oldtown/Middle East
2. Upton/Druid Heights
3. Poppleton/The Terraces/Hollins Market
4. Cherry Hill
5. Greenmount East

### Percent of Households Earning Less than \$25,000 a Year

Measures the concentration of households that earned less than \$25,000 in the previous year.

Definition: The percentage of households earning less than \$25,000 out of all households in an area.

(SOURCE: AMERICAN COMMUNITY SURVEY, 2010–2014)

#### Five Highest:

1. Oldtown/Middle East
2. Upton/Druid Heights
3. Poppleton/The Terraces/Hollins Market
4. Cherry Hill
5. Greenmount East

#### Five Lowest:

1. Canton
2. Greater Roland Park/Poplar Hill
3. South Baltimore
4. Fells Point
5. Lauraville

### Percent of Households Earning \$25,000 to \$40,000 a Year

Measures the concentration of households with earnings in the previous year between \$25,000 and \$39,999 in an area.

Definition: The percentage of households earning between \$25,000 and \$39,999 out of all households in an area.

(SOURCE: AMERICAN COMMUNITY SURVEY, 2010–2014)

#### Five Highest:

1. Dorchester/Ashburton
2. Southeastern
3. Claremont/Armistead
4. Greater Rosemont
5. Edmondson Village

#### Five Lowest:

1. Inner Harbor/Federal Hill
2. South Baltimore
3. Greater Roland Park/Poplar Hill
4. Canton
5. Fells Point

## Percent of Households Earning \$40,000 to \$59,999 a Year

Measures the concentration of households with earnings in the previous year between \$40,000 and \$59,999 in an area.

Definition: The percentage of households earning between \$40,000 and \$59,999 out of all households in an area.

(SOURCE: AMERICAN COMMUNITY SURVEY, 2010–2014)

### Five Highest:

1. Loch Raven
2. Dickeyville/Franklinton
3. Beechfield/Ten Hills/West Hills
4. Medfield/Hampden/Woodberry/Remington
5. Westport/Mount Winans/Lakeland

### Five Lowest:

1. Harbor East/Little Italy
2. Poppleton/The Terraces/Hollins Market
3. Oldtown/Middle East
4. Upton/Druid Heights
4. Greenmount East

## Percent of Households Earning \$60,000 to \$74,999 a Year

Measures the concentration of households with earnings in the previous year between \$60,000 and \$74,999 in an area.

Definition: The percentage of households earning between \$60,000 and \$74,999 out of all households in an area.

(SOURCE: AMERICAN COMMUNITY SURVEY, 2010–2014)

### Five Highest:

1. Loch Raven
2. Allendale/Irvington/S. Hilton
3. Northwood
4. Hamilton
5. Mt. Washington/Coldspring

### Five Lowest:

1. Oldtown/Middle East
2. Forest Park/Walbrook
3. Harbor East/Little Italy
4. Claremont/Armistead
5. Greenmount East

## Percent of Households Earning More Than \$75,000 a Year

Measures the concentration of households with earnings in the previous year over \$75,000 in an area.

Definition: The percentage of households earning more than \$75,000 out of all households in an area.

(SOURCE: AMERICAN COMMUNITY SURVEY, 2010–2014)

### Five Highest:

1. Canton
2. Greater Roland Park/Poplar Hill
3. South Baltimore
4. Inner Harbor/Federal Hill
5. North Baltimore/Guilford/Homeland

### Five Lowest:

1. Upton/Druid Heights
2. Cherry Hill
3. Oldtown/Middle East
4. Poppleton/The Terraces/Hollins Market
5. Greenmount East

## Percent of Family Households Living Below the Poverty Line

Measures economic conditions in an area.

Definition: This indicator measures the percentage of family households whose income fell below the poverty threshold out of all households in an area. Federal and state governments use such estimates to allocate funds to local communities. Local communities use these estimates to identify the number of individuals or families eligible for various programs.

(SOURCE: AMERICAN COMMUNITY SURVEY, 2010–2014)

### Five Highest:

1. Poppleton/The Terraces/Hollins Market
2. Oldtown/Middle East
3. Upton/Druid Heights
4. Cherry Hill
5. Harbor East/Little Italy

### Five Lowest:

1. Greater Roland Park/Poplar Hill
2. Canton
3. Fells Point
4. South Baltimore
5. North Baltimore/Guilford/Homeland

## Percent of Children Living Below the Poverty Line

Measures economic conditions facing persons under the age of 18.

Definition: This indicator measures the percentage of persons under the age of 18 living in households where the total income fell below the poverty threshold out of all children in households in an area. Federal and state governments use such estimates to allocate funds to local communities. Local communities use these estimates to identify the number of individuals or families eligible for various programs.

(SOURCE: AMERICAN COMMUNITY SURVEY, 2010–2014)

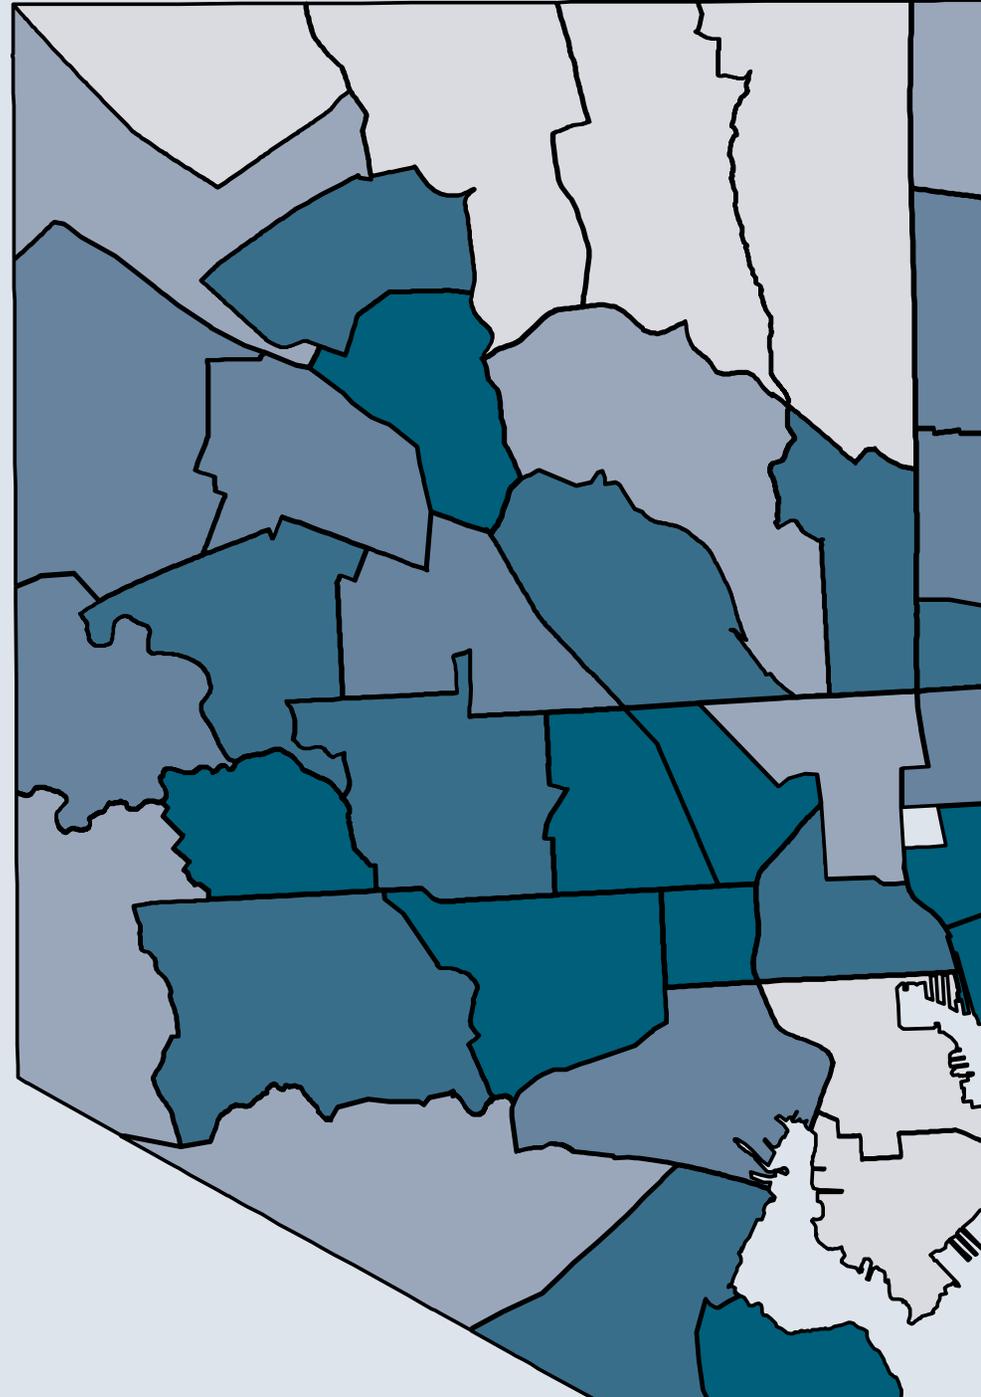

### Five Highest:

1. Poppleton/The Terraces/Hollins Market
2. Oldtown/Middle East
3. Upton/Druid Heights
4. Harbor East/Little Italy
5. Southwest Baltimore

### Five Lowest:

1. South Baltimore
2. Greater Roland Park/Poplar Hill
3. Canton
4. North Baltimore/Guilford/Homeland
5. Mt. Washington/Coldspring
