Agenda

Smart Development for Smart Communities: Heritage Crossing
Meeting #2 – Hands-on Training
University of Baltimore – Thumel Business Center, Room BC019
Monday, June 11, 2018

5:45 – 6:00   Arrival

6:00 – 6:15   Welcome & Introductions

6:15 – 6:30   Accessing Vital Signs Indicators (bniajfi.org)
1. Data by Community
2. Data by Topic
3. Data Visualizations

Objectives: Participants will learn how to access community-based indicators prepared by the Baltimore Neighborhood Indicators Alliance for their annual Vital Signs report. Participants will download the community data profile for their community, learn how to view indicators by topic area and community, and will access data visualizations, including bar charts, line charts, and maps.

6:30 – 7:00   Accessing Data from Open Baltimore (data.baltimorecity.gov)
1. Vacant House Notice (VHN) Properties
2. Part 1 Crime Incidents
3. 911 Calls for Service

Objectives: Participants will learn more about the datasets that are available on the City of Baltimore's open data portal. They will learn how to do keyword searches for datasets, filter the data by attributes (such as neighborhood, date, and other fields), and download the data in Excel format.

7:00 – 7:15   Using SDAT to Search Properties (sdat.dat.maryland.gov/realproperty)

Objectives: Participants will learn how to use the Real Property Search available by the Maryland State Department of Assessments & Taxation for homeowner information for properties in the community.

7:15 – 7:30   Other Resources – Conclude
