Agenda

Data-Driven Decision Making in West Baltimore for Smart Technology Planning
Meeting #2 – Hands-on Training
University of Baltimore – Thumel Business Center, Room BC019
11. West Mount Royal Avenue, Baltimore MD 21201
Wednesday, June 6, 2018

5:45 – 6:00   Arrival

6:00 – 6:15   Welcome & Introductions

6:15 – 6:30   Accessing *Vital Signs* Indicators
1. Community Profiles
2. Data by Topic
3. Data Visualizations

Objectives: Participants will learn how to access community-based indicators prepared by the Baltimore Neighborhood Indicators Alliance for their annual Vital Signs report. Participants will download the community data profile for their community, learn how to view indicators by topic area and community, and will access data visualizations, including bar charts, line charts, and maps.

6:30 – 6:55   Accessing Data from Open Baltimore
1. CitiStat 311 Calls for Service
2. Other datasets?

Objectives: Participants will learn more about the datasets that are available on the City of Baltimore's open data portal. They will learn how to do keyword searches for datasets, filter the data by attributes (such as neighborhood, date, and other fields), and download the data in Excel format.

6:55 – 7:15   Longitudinal Employer-Household Dynamics OnTheMap

Objectives: Participants will learn about the types of labor force data available from the OnTheMap tool and will learn how to search for statistics pertaining to jobs and employment in their neighborhood and download a summary report.

7:15 – 7:30   Other Resources – Conclude
